

OMG

ONENESS MENTORING GROUP

PROGRAM
OUTLINE

An insight into
the program

‘That which
consumes space
in your mind
holds power
over you’

- AMIR ZOGHI

HI, IT'S AMIR HERE...

When I was a young boy, someone very special shared with me something extremely powerful. I'm going to call this something powerful "The Seed".

The Seed allows me to experience life as though it is limitless. I experience my ambitions as though they have no boundaries and I seem to find a great sense of self-fulfillment not in my outcomes or results but within this Seed. Look, I'm not a high in the clouds, fluffy guy. I'm not "woo woo," if you know what I mean. In fact, the only clouds I know, are the ones I fly my aircraft amongst. What I'm talking about is not limited to being intangible, in fact, I experience it in tangible form in my everyday life.

Maybe just like you I work at a job and I also happen to have a business. In my everyday work, I'm an aerobatic pilot and a partner in an aviation company. However thanks to what "the Seed" has given me, everything I do, I do because I choose to. Because I truly love to and not because I need to.

And it's not what you may be thinking: "Well it's because you can afford to, Amir," or you may think that I'm smart or clever. Well, I actually didn't even pass high school. You may think "It's because you come from family money or because you know the right people..."

NO, it's not. I know one thing: I know the truth about this great Seed which opened me to know who I am. And not so much in a "woo woo" way, knowing who I am is not limited to the boundless, formless or spiritual kind of way. I'm talking about experiencing myself and my true infinite potential in my everyday physical life.

Here's the thing though; the Seed cannot be taught to you, or learnt. What I'm talking to you about is beyond human knowledge. You can't think it in human thoughts. So you see, I can't just give you the Seed right now in these words. I can only share with you how it was shared with me. I

know it sounds a little bit mystical, and I guess that's because it may be.

Before I became an aerobatic pilot, I spent over 10 years travelling the world full-time, speaking on stage as a "Mind and Performance Coach". Most weekends I was in a different city of the world, always aiming to make an impact and a difference in people's lives. However, I was only able to make true "everlasting impact" or a true "long-lasting change" with those who I was able to share the Seed with.

Today, I live what I know as a boundless life, a life of possibilities where everything is exactly that: all possibilities. As much as flying is my "everyday passion", the Seed, and what it continues to give me, is "Who I Am".

Like I mentioned above, I can't just write it in these words. It cannot be learnt or understood. I can only share it with you the way it was shared with me, experientially. The Seed can only be experienced by you, and once experienced it will not become knowledge that you have acquired, rather wisdom.

This is why I have dedicated a 12 month coaching program to allow me to share with you "the Seed". Over 15 of my Coaching Modules, shared with you via an online platform, live facilitated intimate groups available both online and in person with one of my facilitators, all designed for you to experience this gift that will literally transform who you are and how your live life.

I wish you well on your journey and with the choices that have presented themselves to you today.

Warmly,

OMG Facilitators

Our OMG Facilitators are hand-picked by Amir Zoghi and have been trained by him in supporting individuals on their journey of awakening and self-realisation. Through their skill in observation and their ability to hold a space of non-judgement and presence they support you in integrating the coaching modules provided by Amir Zoghi.

Our OMG Facilitators have the ability to pinpoint and bring awareness to the mental limiting beliefs or thoughts that don't enable us to experience freedom and take action on what is true for us.

Our OMG Facilitators are highly experienced, and their element of quality support is what enables you to integrate each module of the OMG Program and bring the tangible practices into your own life.

What happens in the Live Group Session?

This is a group of people in synergy with one great thing in mind; the Journey of Oneness and the experiences of Truth and Infinite possibilities. Our hand-picked OMG Facilitators personally meet with an intimate group of no more than 20 people face-to-face where they coach the group through that current module of the OMG Program. This gives the participants the opportunity to ask any questions about their module topic, and really integrate their experiences with support.

For those who are not able to join the group in person, this component of the program is also offered online via a scheduled group Live Video Session.

TESTIMONIALS

"Living this in every moment is a lifestyle change. OMG offers consistent support to stay on track. It's like fitness. Just because you see results, you don't stop, you keep going as there is no destination. It becomes a lifestyle. I can't wait for when I get my new support audio or video and I clear my schedule to watch it as I get insight after insight into my own life. And it translates to decision making. When I make decisions now for things that I would have thought weren't easy or attainable, I watch as things happen in my life to revolve around what I desire, instant manifestation, all by putting my attention on the truth."

- YARI ARENAS

"What I love about the OMG group is that each module feels like a calming meditation. I tend to overthink just about anything and listening to these webinars allow me to turn down the chatter, remember my Truth and to let go of having to control everything. It has helped me to focus on what I love instead of trying to force things to work in a certain way. When I allow myself to live in the flow, everything happens with more ease and in extraordinary ways that I couldn't have planned if I tried. And I'm only on module 4 so I can't imagine what more will come by the time I reach the end!"

YOUR COACHING MODULES

1 RECLAIMING POWER

This powerful module breaks down what it really means to reclaim power. You will learn exactly how and why you put power in things and how this impacts your day-to-day experience. You will dissect the process of reclaiming power and how you can implement it in your day-to-day life to continually experience greater freedom.

2 MANIFESTATION

In this module you will discover the truth about the often misunderstood topic of manifestation. This module breaks down the exact process of manifestation and how you really manifest in your life. From covering the truth about who is actually manifesting right through to how you allow manifestations to take form. This is some of the most advanced training on manifestation ever released!

3 THE EGO

What is the ego? Who is the ego? What is the ego really looking for? And, how do you know when you are in ego? This module will answer your questions about the Ego. You will learn how your ego plays its role and how it continually gives your power to the external. It is only when you become aware of when you are in ego that you can begin reclaiming your power from the external.

4 LOVE

Whether you realise it or not, everything in this world is about LOVE. Everything you do, everything you are searching for, every agenda, it's all ultimately about looking for or to express the love that you already are. This module uncovers what True Love really is and how different that is from the concept society and most people have about love and what it means to be loving. This module goes even deeper and also shows you why love isn't actually free, and why a lot of things that seem "loving" are actually just an agenda and why the most loving thing you can do is sometimes the complete opposite of how "human love" would act.

5 REFLECTIONS

What are reflections and why do they exist? This is the module that gives you the complete understanding of Reflections and why they are so important in supporting you in going deeper into Truth. You will cover the 3 types of reflections; indirect, true and complete, the purpose they each serve and what they are actually reflecting back to you. You will also see the power of making decisions from what's True (from what's reflecting) rather than what's being reflected and why it is not necessary for everyone to "awaken".

6 THOUGHTS

What are thoughts? Where do your thoughts come from? And who is the one actually "thinking"? This thought-provoking module dissects all this and more as it uncovers why we have thoughts and the purpose they serve. It also poses a powerful question; are you even really in control of what you think?

7 THE JOURNEY

This module begins to cover the journey leading you back to living your Truth in your external reality, but this time it's a new you showing up. This module is all about bringing your internal and external worlds together as one and grasping the difference between putting "the power" into form versus "being the power" and using it "through" form.

8 WEALTH

This module covers the idea of wealth and how we truly attain a wealthy life. It also covers the Truth of why people are not being wealthy. You will learn how it's not money that we lack, rather it is Space. This module also covers all the common things people use to consume their space and how to make more space in your life again. The greater your space, the greater your ability to be wealthy.

9 MEANING + PURPOSE

In many modules, it has been shared how "purpose is in who we are and not in what we do," and that "it's when you have realised the purpose that's in who you are, you then give purpose to what you do and not get purpose from what you do". This module will leave your ego doing backflips, and free your soul to soar a life that is not bound by meaning nor purpose, a life that has transcended the limitations that we give to form.

10 **WILLINGNESS**

In this profound module of Willingness, you will capture the essence of true manifestations, and why some of our manifestations are forceful where others need no force what so ever. What's the difference between having "Willingness" and to have "will"? What's the difference between motivation and inspiration? Grasp the roots of where these words are coming from, and you can grasp "Free Will".

11 **TIME, SPACE + THE NOW**

So much has been said about Space, now see how Time falls into the picture. What does it really mean to transcend time and space? And why is being in the "present moment" still being limited by time and the story? In this module you'll reach and touch what it really is, to be INFINITE.

12 **TRUTH + THE JOURNEY TO IT**

In this module, we discover what it ultimately takes to be one with the Truth and how the previous modules fall perfectly into place upon the journey to Truth. Uncover the transition points from phase 1, phase 2 and phase 3 of consciousness. And finally why some are ready for it, and others are not, and what determines one's experience of the Truth or not.

13 *IMAGINATION*

This module covers a very powerful statement; 'You imagine what you desire.' But don't take this statement so lightly, it's coded with a great depth and Truth, and you will have missed it simply by just reading the statement. Who is imagining? What is the imagined? Who desires and why? And where are you Infinite right now among your finite reality?

14 *I AM*

This is one of the most powerful modules in the program so far. It will allow you to see and almost touch tangibly the intangibility of the last 13 coaching modules. This is the module that will support you most in grasping the intangible, the formless, as though it was tangible and in form. Really, what we're trying to say here is that this module will support you to integrate the last 13 modules so you can live them in your everyday life in physical form.

15 *PURITY*

One of our greatest strengths on our spiritual path is our ability to be pure, to be raw, to be completely open and experience our own innocence. One of our greatest weakness on our spiritual path is to be pure, to be raw, to be completely open and experience our own innocence. How can our greatest strength on our spiritual path become our greatest weakness?

When you master and find the ability to merge your greatest strength with your greatest weakness as one integrated energy you will find that everything shared with you over the last 14 coaching modules because second nature. You don't have to try, or be disciplined in living what comes to you as second nature.
